Extra Learning! Wow!

As a result of a scheduling change, we realized that our 5th through 8th grade boys would have an extra, unscheduled 10 minute slot on Mondays through Thursdays every week. Mrs. London and Rabbi Chastain created a special challenge for our masmidim: If each chavrusa team learns at least one Mishna a day, could they finish the entire Seder Moed? They accepted the challenge with gusto and the kol Torah can be heard emanating from DHR's Rosenblatt Shul-Bais Medrash every day! We are so proud of these guys! They are impressive talmidim who don't waste a moment of this special learning time. Did we mention that we are planning a mega-siyum in the spring to celebrate when - not if - they complete every single mishna in Seder Moed!

Middos Mentions!

During Gedolim, the teacher accidentally spelled something wrong and Dovi kindly & sensitively pointed it out in a respectful way! What outstanding Middos!

Leora, Malachi & Avigail all ran to help a classmate clean up with her mess! Great job!
