Importance of Handwashing

Washing your hands is important at all times, but especially pertinent during flu season. The Centers for Disease Control and Prevention recommends washing your hands often, for at least 20 seconds at a time with warm water. When rubbing soap on your hands, be sure to lather the backs of your hands, between the fingers, and under your nails. Parents should encourage children to wash hands frequently, especially before and after eating, after using the restroom and after sneezing, coughing or blowing their nose.

Chanuka Packages for Soldiers

Once again, we are asking DHR families to help us send Chanuka cards and care packages to Jewish U.S. soldiers serving around the world. It brings so much joy to the soldiers celebrating Chanuka far from their families. All cards and donations need to be in the DHR office by **December 5** in order to have enough time to reach the soldiers by the first night of Chanukah. **To participate, please send your packages of home-baked goods, cards, toiletries, etc. to school over the next few weeks.** Let's brighten the lives of our soldiers this Chanuka!

Middos Menchen Stars of the Week

Raphael Berenstein cleaned up milk that was spilled in the stairway by someone else! Thank you for taking such good care of our school! **Dovid** admitted he got a test question wrong to Rabbi Cohen even though it was marked correct by the teacher! What great honesty!
